

Tufts Health Plan SCO Care Management - Newsflash

EPIC Access Prior to Member Effective Date

From: Damien Wimbush

Please **DO NOT** access EPIC records on any members prior to their Tufts Health Plan SCO plan effective date.

Accessing Epic records prior to a member's effective date is a violation of our contract with Atrius, as well as a HIPPA violation. In the future, there will be written warnings issued to anyone who is identified as accessing member records prior to effective date.

If you have any questions, please contact your direct supervisor.

Thanks,

Damien
