

Tufts Health Plan SCO Care Management - Newsflash

Tufts Health Plan SCO Care Management shared drive files and folders

From: Damien Wimbush

Shared Folder: THP-Business\Care Management model\

Critical department files and folders have been moved, renamed and in some cases deleted from the Tufts Health Plan SCO Care Management shared drive in the past few weeks. Specifically, the Care Management Tools folder was renamed to “po” and the Decision Support Tool Files in the DST folder were all deleted from the shared drive.

Please be extremely careful when navigating the department shared folders as to not accidentally modify or delete any folders or files without the appropriate permissions.

Also, when using the template documents in these folders, for example, the DST template files, please DO NOT save the edited version of these documents to the shared folder, save them to your own personal network drive.

If you have any questions, please contact your direct supervisor.

Thanks,

Damien
