

Tufts Health Plan SCO Care Management - Newsflash

**Provider Name and NPI Number for Transportation Requests**

**Tufts Health Plan SCO Care Managers**

Effective immediately, you may discontinue including **Provider name** and **NPI #** for transportation requests. **You must continue to provide the purpose of the trip and the destination** (for example: nonurgent medical transportation up to X# of trips / week to the cardiologist, endocrinologist, and PCP). If there is an instance where you are recommending transportation that is not for a medical visit (for example: ride to a chronic disease program), please contact your Clinical Manager/Clinical Consultant for review.

Thanks,

Damien
