

Post Hospital Assessment (PHA) Activity Log Entries

Activity Log entries should be created for all Day 2 and Day 7 Post Hospital Assessments. When creating Activity Log entries for PHAs, please remember to use "Care Transitions" for the Activity Type and "Post Hospital Note" for the Activity Detail.

Steps to create PHA Activity Log:

1. Create new Activity Log for the member
2. Select **Activity Type**: Care Transitions
3. Select **Activity Detail**: Post Hospital Note
4. Right click inside the **Notes** field to insert the PHA Standard Text
[Standard Text > SCO CM > Post Hospital Assessment]
5. Enter PHA information for each category in the Notes field

The screenshot shows the 'Click here to create a new Activity Log' form. The 'Created Date' is 1/27/2015 10:51:03 AM and the 'Status' is Complete. The 'Activity Type' dropdown is set to 'Care Transition' and the 'Activity Detail' dropdown is set to 'Post Hospital Note'. The 'Notes' field contains a list of categories: Brief Overview, Follow-Up Physician Appointments Scheduled, New Medications, Skilled Agency/Services, Functional Change, Previous Service Plan, Any Changes or Additions, When are Services Provided, and Plan/Areas of Concern. A right-click context menu is open over the 'Notes' field, with 'Standard Text' selected. A red arrow points to the 'Standard Text' option, and a red box contains the text 'Right-click to insert PHA Standard Text'. The 'SCO CM' option is also visible in the context menu. The 'Submit' button is at the bottom right.

Thanks,

Damien
