

Depression PHQ-2

The PHQ-2 is the first two questions of the PHQ-9 and is a part of the Comprehensive 3.0 Assessment. If member responses are negative (meaning a score below 3) to these questions, the PHQ-9 section that follows should not be completed.

If member responses are positive to the PHQ-2 (meaning a score of 3 or more), please send referral via task to Susan Reardon the SCO Behavioral Health (BH) Consultant.

- **Task Type:** Interdisciplinary Team Referral
- **Task Detail:** Behavioral Health Clinician Referral
- **Notes:** Reason for referral (PHQ-2 score, concerns, self-reported psych dx, etc.)

Once Susan receives the BH referral (task), she will request Health & Physical (H&P) information from the member's PCP and possibly initiate a home visit to complete the PHQ-9 along with a full BH assessment. Please note that the PHQ-9 should only be completed by the SCO BH Consultant.
