## **Tufts Health Plan SCO Dental Benefit – Code Expansion**

Updated codes covered under the SCO dental benefit.

The Dental Benefit is a very important part of the SCO coverage. We have expanded the codes available under our current benefits (example: Crowns are an existing benefit, we are now including porcelain as a coverage option).

These additional codes were effective as of **7/1/2015**. Adding these codes offers a higher level of coverage and brings us on par with other competitors. The addition of these codes will not change any of our current processes. Customer support, prior authorization and claims will continue to be managed by **DentaQuest**.
