

Large Group Underwriting Guidelines for MA Renewals

*Under Massachusetts State Law - Coverage described above must be offered to all full time employees who reside in the Commonwealth of Massachusetts. The employer group may not make a smaller premium contribution percentage amount to any employees than it makes to any other employees who receive an equal or greater total hourly or annual salary for each specific health plan offered. Separate contribution percentages for employees covered by collective bargaining agreements may be established.

The proposal reflects rates and benefits that are in compliance with the Affordable Care Act (ACA).

The renewal rates are valid for the effective date listed in the quote and assume and/or are contingent upon the following:

The ability of Tufts Health Plan to issue a proposal is subject to a complete and accurate submission in the form requested by Tufts Health Plan.

If Tufts Health Plan determines that any of the information has been omitted, concealed, or misrepresented any fact which Tufts Health Plan determines to have had an effect on Tufts Health Plan's assessment of the risk, Tufts Health Plan reserves the right to re-underwrite the proposal including resetting premium rates.

If any of these contingencies are not satisfied, rates may be adjusted or to the extent legally permissible, coverage may be terminated.

General

The rates are based on the description of the group and its benefits plan at the time of this proposal, and are subject to review and possible revision if there are significant changes in the group or plan prior to or on the proposed effective date, or subscriber enrollment changes by +/- 10% during the renewal period.

A minimum of one employee must remain enrolled in the Plan.

The rates may change due to a change in commissions or change in effective date.

The Group must be domiciled or headquartered in Massachusetts; and a majority of their employees must physically work in Massachusetts; or

Tufts Health Plan products can be offered to a Group not domiciled nor headquartered in Massachusetts provided:

- (a) The company has more than 50 eligible employees nationally, and;
- (b) The company has a work site location in Massachusetts.
- (c) Coverage is limited to those employees that physically work in Massachusetts and their eligible dependents

Exceptions to these requirements must be approved by Tufts Health Plan underwriting.

Differential co-payments for primary care providers and specialists are not available on CareLink or MultiPlan Network PPO plans.

Eligibility

Large groups are defined as businesses actively engaged in business with a Massachusetts worksite that:

- have more than 50 eligible employees, or
- do not meet the Massachusetts definition of Small Group.

An eligible employee is an employee who is entitled under the group's written eligibility policies (or as otherwise required by law) to participate in the group's health benefits program, is a bona fide employee of the group and regularly employed on a permanent, full-time basis working at least 20 hours per week.

The employer must clearly define all eligible classes in a non-discriminatory manner.

Temporary, seasonal, part-time or retired employees age 65 or older are not eligible unless Tufts Health Plan waives this contingency in writing.

Unless Tufts Health Plan waives these contingencies in writing, a group must have a minimum participation of 75% of full-time net eligible and employer contributions of at least 50% toward Individual coverage and 33% toward Family coverage. Failure to meet the participation and contribution requirements may result in rate adjustments.

Service Area

All employees who enroll in the Tufts Health Plan HMO must live, reside, or physically work within the Tufts Health Plan service area.

Any eligible members, who do not live, reside, or physically work within Tufts Health Plan's service area will only be enrolled on our POS or PPO Plan.

If **CareLink**: Covered services received in Massachusetts and Rhode Island are covered at the in-network level by the Tufts Health Plan CareLink network. Covered services received outside Massachusetts and Rhode Island are covered at the in-network level by the CIGNA CareLink network. (Note: The CIGNA CareLink network is the United States [the 50 states]).

If **PPO (non CareLink)**: All employees who live, reside, or physically work in the Tufts Health Plan Service area are covered at the in-network level by the Tufts Health Plan network. Employees who live, reside, or physically work outside the Tufts Health Plan Service Area are covered at the in-network level by the MultiPlan Network.

If **PPO OOA Only**: Only those employees who live, reside, or physically work outside the Tufts Health Plan service area may join the OOA PPO and must access the MultiPlan Network.

Funding of the Deductible

Rates assume no more than 50% funding of the employee/family deductible costs in an HRA or HSA.

For deductible plans without an HRA or HSA, the employee will be financially responsible for the funding of the entire deductible amount.

Plan Combinations

All dual or multi option plan pairings are subject to possible risk selection adjustments.

Tiered Provider Network Specific Contingencies:

Your Choice is a tiered provider network product that must be offered as total replacement.

If Your Choice is Dual Option, the HMO and PPO must have the same tiered plan design.

The relative value pricing factor for Your Choice may be adjusted for actual account-specific factors such as utilization.

On a case-by-case basis, CareLink (non-tiered) may be offered alongside Your Choice HMO.

If CareLink is offered alongside Your Choice HMO, CareLink must have an upfront deductible of at least \$1,000.

Your Choice quotes assume no HRA will be offered. On request, underwriting will consider HRAs with the Your Choice benefit plan designs that include a deductible in tiers 1 and/or 2. In these cases, the maximum HRA contribution will be limited to no more than 50% of the tier 2 deductible values.

Limited Provider Network Specific Contingencies:

Steward Community Choice and HMO Select are limited provider network products that must be offered as total replacement.

For Steward Community Choice, employees must live, reside or physically work in the Steward Community Choice Service Area and the employer group must have a work site in the Steward Community Choice Service area.

For HMO Select, employees must live, reside or physically work in the HMO Select Service Area. Its service area is all MA counties except Berkshire, Dukes, and Nantucket and HMO Select is not available to employers located in those three counties.

On a case-by-case basis subject to underwriting approval, limited networks may be offered as a joint offering or as a multi option alongside certain full network plans.

Regulatory Contingencies

For any plan in which the deductible exceeds \$2000 for IND coverage and \$4000 for FAM coverage, Tufts Health Plan requires an HRA fund of a sufficient amount to offset the deductible. The plan must have this HRA funding mechanism in order to meet MA MCC requirements. For example, if a plan has a deductible of \$3000 for IND coverage and \$6000 for FAM coverage, there must be an HRA fund of at least \$1000 for IND coverage and \$2000 for FAM coverage.

The rates may be changed due to changes in state mandated benefits or regulatory requirements that increases Tufts Health Plan's risk or financial obligations under the coverage.

The rates may change if there is a change in the interpretation of state or federal law that increases Tufts Health Plan's risk or financial obligations under the coverage.

The rates include the following ACA Fees for 2015*:

- 1.) Health Insurance Industry Fee: Estimated at .9-2% of premium
- 2.) PCORI Fee (formerly Comparative Effectiveness Research Fee): \$.18 per member per month
- 3.) Reinsurance Assessment Fee: \$3.67 per member per month

*- The fees may be subject to change.
