

Care that Fits Your Employees' Busy Lifestyle

When your employees need after-hours care, they need it now. That's why we offer 4 different immediate care options that deliver a better experience than waiting in the hospital emergency room and dealing with costly, unexpected bills. We give your employees choices for quality care that fit their busy lifestyle, and help them save money.

Each option has predictable co-pays, and Nurse24SM is actually free. These options can provide prompt care from a medical professional wherever your employees happen to be. They can choose to access care from: urgent care centers, retail clinics, telehealth (if included with their plan), and Nurse24.

To learn more about the 4 immediate care options, visit the "[Health Information + Tools](#)" section of our member website.

Also, we encourage you to take advantage of our employer communications tool kit so you can spread the word about immediate care at your worksite. Contact your account manager for details.

Help your employees understand their options so they're prepared when they need care. It could save them money and, just as important, valuable time.
