

## RECENT UPDATES RHODE ISLAND LARGE GROUP

**Health Care Reform Updates****2018 Requirement on Cost Sharing**

Health and Human Services (HHS) through the 2018 Notice of Benefit and Payment Parameters establishes out-of-pocket maximum amounts based on two-year estimated premium adjustment percentages. The out-of-pocket maximum for in-network services for plans other than High Deductible Health Plans (HDHPs) for 2018 is \$7,350 for self-only coverage and \$14,700 for other than self-only coverage.

The IRS sets out-of-pocket maximum limits on High Deductible Health Plans (HDHPs). The HDHP limits for Tufts Health Plan Saver plans for 2018 are \$6,650 for self-only coverage and \$13,300 for other than self-only coverage. ACA rules limit out-of-pocket maximums on individuals within a family. In 2018, no one individual within a family can have an out-of-pocket maximum greater than \$7,350.

**Plan Benefit Changes****Effective upon renewal date on and after January 1, 2018**

We've looked carefully at several different areas of our plan designs to create new opportunities for savings and added value for our employers. You'll be interested to know about the following benefit changes for all group plans, which are available upon renewal date beginning January 1, 2018.

**1. Separate Cost-Share Tiering for Site of Service**

We are offering a new option that allows Large Group employers to set a lower cost-share for members who receive the following types of service at a freestanding facility: high- and low-tech imaging, laboratory and diagnostic tests.

While we believe it is important for our members to use doctors' offices and affiliated hospitals for continuity of care, we also want our members to be empowered to choose the treatment setting that is best for their unique needs.

Again, this cost-share tiering is available as an option for all Large Group plans in MA, RI, and NH, with the exception of our CareLink and Out-of-Area plans.

**2. Separate Cost-Share for Urgent Care Centers**

We are now enabling Large Group employers to apply a separate cost-share for contracted, freestanding Urgent Care Centers. This change is designed to help reduce inappropriate use of emergency rooms and promote lower-cost alternative treatment settings. (Note: referrals are not required for freestanding Urgent Care Centers or Minute Clinics.)

Employers can select from the following types of cost-sharing:

- co-payment
- deductible
- deductible then co-payment
- deductible then co-insurance, or
- covered in full

This option applies to all Large Group plans in MA, RI, and NH, with the exception of our CareLink and Out-of-Area plans.

### 3. Stand-Alone Cost-Share for Therapy (Physical, Occupational and Speech)

Employers will now have the ability to assign a unique cost-share for PT/OT/ST services. Each of these services will take the same cost-share, but employers will choose from one of the following options:

- co-payment
- deductible
- deductible then co-payment
- deductible then co-insurance
- covered in full

This option applies to all Large Groups in MA, RI and NH.

### New Prescription Drug Coverage Changes

We regularly review our prescription medication coverage to offer members a pharmacy benefit that is clinically appropriate and cost-effective. Based on this review and marketplace trends, we need to make occasional adjustments to balance cost and access to prescription medications for members.

### July 1 Prescription Drug Coverage Changes

These changes in prescription drug coverage are effective on July 1, 2018, and apply to members of both Tufts Health Plan and Tufts Health Freedom Plan. Affected members will be notified of the changes by mail.

- Due to the generic launch of Reyataz, Sustiva, and Viread, the tier for these brands will be moving to Tier 3 on our large group formularies

### Covered Alternative on the Same or Lower Tier

Drug Moving to Tier 3	Covered generic alternative*	Tier of covered alternative
Reyataz <sup>®</sup> capsules	atazanavir capsule	Tier 2
Sustiva <sup>®</sup> capsules	efavirenz capsules	Tier 2
Sustiva <sup>®</sup> tablets	efavirenz tablets	Tier 2
Viread <sup>®</sup> 300mg tablets	tenofovir disoproxil fumarate tablet	Tier 2

\*Covered lower tier alternative is the generic for the referenced brand

- We will no longer cover the following brands on our large group formularies:

Brand drugs moving to not covered	Covered lower tier alternative drug*	Tier of covered alternative
Dovonex <sup>®</sup> cream	calcipotriene cream	Tier 2
Estrace <sup>®</sup> cream	estradiol cream	Tier 2
Locoid <sup>®</sup> lotion	hydrocortisone butyrate 0.1% lotion	Tier 2
Namenda <sup>®</sup> XR capsule	memantine ER capsule	Tier 2

Syprine <sup>®</sup> capsule	trientine capsule	Tier 2
Viagra <sup>®</sup> tablet	sildenafil citrate tablet	Tier 2

\* Covered lower tier alternative may be the generic for the referenced brand or may be a therapeutic alternative  
**Note:** This is not an all-inclusive list of potential alternatives; please refer to the formulary on the website.

- The following brand will no longer be covered on our small group formularies:

Brand drug moving to not covered	Covered lower tier alternative drug*	Tier of covered alternative
Dovonex <sup>®</sup> cream	calcipotriene cream	Tier 2

\* Covered lower tier alternative may be the generic for the referenced brand or may be a therapeutic alternative  
**Note:** This is not an all-inclusive list of potential alternatives; please refer to the formulary on the website.

- All of the long-acting Central Nervous System (CNS) stimulant medications used for the treatment of Attention Deficit Hyperactivity Disorder (ADHD) will have quantity limitations on our formularies. The quantity limitations are in line with recommended dosing. The quantity limits apply to all of the long acting formulations of the following medications:
  - Amphetamine (e.g. Adzenys XR tablets)
  - Amphetamine-dextroamphetamine (e.g. Adderall XR capsules)
  - Dexamethylphenidate (e.g. Focalin XR capsules)
  - Dextroamphetamine (e.g. Dexedrine capsules)
  - Lisdexamfetamine (e.g. Vyvanse capsules)
  - Methylphenidate (e.g. Ritalin LA capsules, Concerta tablets)

### Oral/Enteral Formula – Effective on strike date of January 1, 2018

Effective January 1, 2018, members will no longer be able to obtain oral/enteral formulas at a pharmacy under their pharmacy benefit.

- These formulas will need to be ordered through a durable medical equipment (DME) supplier. They will be covered as a medical supply with the applicable member cost-share.

Affected members will be notified of this change on or around November 1. Members will be advised to contact their providers.

- This formulary coverage change applies to all Large Groups in MA, RI, and NH

### January 1, 2018 Prescription Drug Coverage Changes

These changes in prescription drug coverage are effective on January 1, and apply to members of both Tufts Health Plan and Tufts Health Freedom Plan. Affected members will be notified of the changes by mail.

- The drugs listed on the table below will be moved to a higher tier on January 1.  
 A list of lower tier alternatives is provided in the table.

Drug(s) Moving to Tier 3	Lower Tier Alternative Drug(s)	Tier of Alternative Drug(s)
adapalene (0.1%) cream	Differin 0.1% gel OTC	tier 1
adapalene (0.1%, 0.3%) gel		
benzoyl peroxide (5.3%, 6%) foam	benzoyl peroxide 10% liquid wash	OTC
benzoyl peroxide 2.5% liquid wash		
benzoyl peroxide 9.8% foam		
chlordiazepoxide/clidinium capsules	dicyclomine hyoscyamine	tier 1
clindamycin 1% foam	clindamycin 1% solution and pad	tier 1
clindamycin/benzoyl peroxide (1.2-5%, 1-5%) gel	erythromycin/benzoyl peroxide gel	tier 1
diclofenac sodium 3% gel	topical diclofenac solution topical diclofenac 1% gel	tier 1
doxycycline hyclate DR tablets	doxycycline capsules, tablets, suspension	tier 1
esgic capsules	butalbital/acetaminophen butalbital/aspirin/caffeine	tier 1
lidocaine 5% pad	lidocaine 3.6% patch	OTC
salicylic acid 6% foam	salicylic acid lotion, gel, cream	tier 1
tetracycline capsules	minocycline capsules	tier 1
tretinoin (0.04%, 0.1%) microsphere gel	tretinoin 0.01% gel tretinoin 0.025% gel	tier 1
tretinoin 0.05% gel		
clindamycin-tretinoin gel	tretinoin 0.01% and 0.025% gel clindamycin 1% solution, and pad	tier 1
migergot suppository (ergotamine tartrate and caffeine)	butalbital/aspirin/caffeine ibuprofen	tier 1
minocycline ER tablets	minocycline capsules	tier 1

Drug(s) Moving to Tier 2	Lower Tier Alternative Drug(s)	Tier of Alternative Drug(s)
atovaquone suspension	sulfamethoxazole/trimethoprim tablets and suspension	tier 1
benzoyl peroxide 7% liquid wash	benzoyl peroxide 10% liquid wash	OTC
brimonidine 0.15% ophthalmic solution	brimonidine 0.2% ophthalmic solution	tier 1
bromfenac 0.09% ophthalmic solution	diclofenac sodium eye drops	tier 1
calcipotriene 0.005% cream	calcipotriene 0.005% ointment	tier 1
cefixime suspension	cefdinir cefprozil cefuroxime ceftibuten	tier 1
cefepodoxime (tablets and suspension)		
cevimeline 30mg capsules		
clindamycin 1% gel	clindamycin 1% solution, and pad	tier 1
clindamycin 1% lotion		

colchicine 0.6mg tablet	N/A	N/A
dantrolene capsules	carisoprodol	tier 1
dronabinol capsules	promethazine meclizine	tier 1
eplerenone tablets	spironolactone	tier 1
fondaparinux injections	enoxaparin injection	tier 1
griseofulvin (tablets and suspension)	fluconazole	tier 1
itraconazole capsules	terbinafine	
lidocaine 5% ointment	lidocaine cream 3% lidocaine gel 2%	tier 1
metaxalone tablets	carisoprodol cyclobenzaprine baclofen	tier 1
metronidazole 0.75% vaginal gel	vandazole 0.75% vaginal gel clindamycin 2% vaginal cream tinidazole tablets	tier 1
metronidazole 0.75% lotion	metronidazole 0.75% cream, gel	tier 1
metronidazole 1% gel		
minocycline tablets	minocycline capsules	tier 1
mycophenolate 200 mg/ml suspension	mycophenolate capsules and tablets	tier 1

neomycin/polymyxin b/hydrocortisone ophthalmic solution	neomycin/polymyxin/dexamethasone ophthalmic solution	tier 1
oxiconazole nitrate cream	nystatin cream ketoconazole cream terbinafine cream	tier 1
pacerone 100mg tablet	amiodarone tablets propafenone tablets	tier 1
potassium chloride (10%, 20%) solution	potassium chloride ER tablets potassium chloride micro ER tablets potassium chloride CR tablets potassium chloride micro CR tablets	tier 1
potassium chloride 20 mEq powder packet		
potassium citrate tablets		
propafenone ER capsules	propafenone tablets	tier 1
quinidine gluconate tablets	quinidine sulfate tablets	tier 1
rivastigmine transdermal patch	rivastigmine capsules galantamine ER capsules	tier 1
tobramycin/dexamethasone ophthalmic solution	bacitracin/polymyxin eye ointment neomycin/polymyxin/gramicidin eye drops	tier 1
tretinoin (0.025%, 0.05%, 0.1%) cream	tretinoin 0.01% gel tretinoin 0.025% gel	tier 1
trifluridine 1% ophthalmic solution	N/A	N/A
tropium chloride ER capsules	tropium chloride tablets	tier 1
vancomycin capsules	metronidazole tablets	tier 1
voriconazole tablets	fluconazole	tier 1

	ketoconazole terbinafine	
--	-----------------------------	--

N/A: No lower-tiered alternatives available

OTC: drugs available over the counter

\* Please note, Tufts Health Plan does not provide coverage for over the counter drugs unless it is noted with a Tier

- The brand drugs listed below will no longer be covered on our formularies effective January 1.  
**Note:** *This is not an all-inclusive list of potential alternatives. Please refer to the formulary on our website.*

Brand drugs moving to not covered	Covered lower tier alternative drug*	Tier of covered alternative
Androderm	Testosterone gel	Tier 2
Androgel		
Testim		
Vogelxo		
Striant		
Valtrex	valacyclovir	Tier 1
Benicar	valsartan	Tier 1
Benicar HCT	valsartan/hydrochlorothiazide	Tier 1
Azor	amlodipine/olmesartan	Tier 2
Atralin	tretinoin gel or cream	Tier 1 or Tier 2
Retin-A		
Benzaclin	erythromycin/benzoyl peroxide	Tier 1
Duac		
Differin (Rx)	Differin OTC	Tier 1
Doryx	doxycycline hyclate capsules	Tier 1
Evoclin	erythromycin gel or solution	Tier 1
Lidoderm	lidocaine ointment 5%	Tier 1 <sup>^</sup>
Solaraze	diclofenac solution 1.5%	Tier 1

\*Covered lower tier alternative may be the generic for the referenced brand or may be a therapeutic alternative

<sup>^</sup>Moving to Tier 2 as of 1/1/18

- **Granix<sup>®</sup>** (tbo-filgratim) and **Neupogen<sup>®</sup>** (filgrastim) will require prior authorization effective January 1. This prior authorization requirement applies to all Commercial formularies. The alternative **Zarxio<sup>®</sup>** (filgrastim-sndz) does not require prior authorization.

### Unapproved prescription drugs

Under the Federal Food, Drug, and Cosmetic Act, drug manufacturers may legally market certain drugs even without FDA approval. Until now, lack of public information has made it difficult for health plans and prescription benefit managers to effectively manage these unapproved drugs.

Recently, the Centers for Medicare & Medicaid Services (CMS) began publishing information about recently unapproved drugs and sharing it with health plans and pharmacy benefit managers. The information identifies which drugs are currently not FDA-approved while ensuring coverage of clinically appropriate alternative drugs that are FDA-approved.

Formulary changes are being made to exclude coverage for prescription drugs that lack FDA approval. A letter was sent to your impacted employees in March informing them that their medication(s) will no longer be covered effective June 1, 2017 and will list an appropriate alternative drug(s).

## **Additional Information**

### **Telehealth**

On May 1, 2018 all fully insured clients will have telehealth benefits available to their members. Members will be notified through Well! Magazine in May that they'll be able to connect with a doctor through phone, video or mobile app visits 24/7. They can learn more and register at [tuftshealthplan.com/telehealth](http://tuftshealthplan.com/telehealth). Please reach out to your Account Manager for details or if you want assistance promoting telehealth to your employees.

### **MyWire**

Members new ID cards came with a sticker and phone number to sign up for MyWire—a new way to connect with their benefits. If members are interested in learning about Tufts Health Plan's wellness programs, ways to save with member discounts, access to care 24/7 and more, they can visit [tuftshealthplan.com/mywire](http://tuftshealthplan.com/mywire). Please reach out to your Account Manager for details or if you want assistance promoting MyWire to your employees.

### **Joint Surgery Management Program – effective January 1, 2018**

To help improve clinical outcomes and manage the increasing cost of joint surgery, Tufts Health Plan, working in conjunction with an industry leader in medical specialty solution management, will provide utilization management for these services. We are providing this enhancement to our existing joint surgery program to help better manage utilization of elective surgeries and quality of care for our members.

### **Methadone Maintenance – Elimination of Member Cost-Share – effective upon renewal on and after January 1, 2018**

Recognizing the impact of the opioid crisis in the diverse communities we serve, we are taking steps to reduce barriers to the essential care our members need. The post-deductible co-pay and cost – shares for methadone maintenance for all commercial plans are being eliminated.

### **Telemedicine Coverage Act - January 1, 2018**

Effective upon renewal or new sale on or after January 1, 2018, for all fully insured Rhode Island-based plans, health insurers shall provide coverage for the cost of health care services provided through telemedicine\*, so long as the health care services would be covered when provided in person and are medically appropriate to be provided through telemedicine. Applicable deductible, copayment, or coinsurance will apply for a health care service provided through telemedicine.

\*Telemedicine is the delivery of clinical health care services by means of real time two-way electronic audiovisual communications, including the application of secure video conferencing or store-and-forward technology to provide or support health care delivery, which facilitate the assessment, diagnosis, treatment, and care management of a patient's health care while such patient is at an originating site and the health care provider is at a distant site, consistent with applicable federal laws and regulations.

Telemedicine does not include an audio-only telephone conversation, email message or facsimile transmission between the provider and patient, or an automated computer program used to diagnose and/or treat ocular or refractive conditions

### **Non-Opioid Pain Treatment**

In order to comply with recent changes to state law, effective January 1, 2018, all fully insured Rhode Island plans will include coverage for medically necessary evidence-based non-opioid treatments for pain for members with substance abuse disorders, including chiropractic care and osteopathic manipulative treatments. Applicable member cost-share will continue to apply

### **Infertility Coverage**

In accordance with state law, effective August 1, 2017, all fully insured Rhode Island-based plans will provide coverage for standard fertility preservation services when medically necessary treatment may directly or indirectly cause iatrogenic infertility\*. In addition, the requirement that a member be married to receive infertility services has been removed. Applicable member cost-share will continue to apply.

\*iatrogenic infertility - an impairment of fertility by surgery, radiation, chemotherapy or other medical treatment affecting reproductive organs or processes.

### **Provider Directories**

Provider directories are available to members online and through mobile devices at [tuftshealthplan.com](http://tuftshealthplan.com). Hard copies are available upon request.

### **PCP Designation**

Rhode Island law requires that health plans attribute members to primary care providers (PCPs). We record PCP designations for all HMO plan members and encourage PPO members to designate a PCP for which we'll also keep record. (This designation does not change the administration of our PPO plans.)

### **Women's Health and Cancer Rights Act**

Under the Women's Health and Cancer Rights Act of 1998, Tufts Health Plan covers the following procedures in connection with mastectomy for medically necessary conditions including, but not limited to, breast cancer for men and women:

- Reconstruction of the breast affected by a mastectomy.
- Surgery and reconstruction of the other breast with the goal of producing a symmetrical appearance.
- Prosthesis and treatment of physical complications of all stages of mastectomy. (There is no annual dollar limit for breast prostheses coverage.)

### **Mandatory Medicare Reporting Requirements**

Mandatory reporting requirements respecting Medicare beneficiaries have been created by the passage of Section 111 of the Medicare, Medicaid, and SCHIP Extension Act of 2007. By mandating electronic exchange of health insurance benefit entitlement information by responsible reporting entities (including Tufts Health Plan), these requirements will enable the Centers for Medicare and Medicaid Services (CMS) to correctly pay for the health insurance benefits of Medicare beneficiaries by determining primary versus secondary payer responsibility. To comply with this mandate, Tufts Health Plan will require employers to provide additional information to us, including member social security numbers and employer tax identification numbers. Our plan is to gather this information from our existing database wherever possible and contact employers directly to supply us with necessary information to fill any gaps in our reporting requirements to CMS. For more information on this mandate, please visit <http://www.cms.hhs.gov/MandatoryInsRep/>, or contact your Account Manager.

## DISCRIMINATION IS AGAINST THE LAW

**Tufts Health Plan complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Tufts Health Plan does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.**

### **Tufts Health Plan:**

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
  - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
  - Qualified interpreters
  - Information written in other languages

If you need these services, contact Tufts Health Plan at 800.462.0224.

If you believe that Tufts Health Plan has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with:

**Tufts Health Plan, Attention:**

Civil Rights Coordinator Legal Dept.  
705 Mount Auburn St. Watertown, MA 02472  
Phone: 888.880.8699 ext. 48000, [TTY number — 800.439.2370 or 711]  
Fax: 617.972.9048  
Email: OCRCoordinator@tufts-health.com

You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, the Tufts Health Plan Civil Rights Coordinator is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

**U.S. Department of Health and Human Services**

200 Independence Avenue, SW  
Room 509F, HHH Building Washington, D.C. 20201  
800.368.1019, 800.537.7697 (TDD)

Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>.
