

Q1 2019 Small Group Plans & Rates

At Tufts Health Plan, we're excited to have you compare our Q1 2019 small group rates in [BrokerLink](#).

Our rates are very competitive across most of our HMO plans. Based on your feedback, we have also made some changes to our PPO plans, which have improved their price position significantly. Our HMO/PPO paired plans are also in a strong competitive position. You can find 2019 small group materials in the Broker Resource Center on our public site.

January 1st New Business Submissions Due by December 12th

We anticipate increased volume due to our competitive Q1 2019 rates. We ask that you please submit all completed paperwork as soon as possible. Although we will not impose a cut-off date, submissions need to be received by the close of business on December 12th to ensure group installation and member enrollment by the effective date.

We understand it may not be possible to meet the December 12th date for every group. In such instances, we will need your help to appropriately temper expectations the closer we come to the effective date. Tufts Health Plan will make every effort to process and complete all submissions as quickly as possible.

We appreciate your continued partnership over the past year. We're excited about our product suite for 2019, and we believe you and your clients will feel the same!
