

Third Party Administrators For Your Health Reimbursement Arrangement (HRA)

Our goal is to recommend third party administrators (TPAs) that provide superior customer service, and the flexibility to support more options for customized plan designs. Tufts Health Plan recommends that our employer groups who want to provide their employees with an HRA, select from one of our preferred Third Party Administrators. Tufts Health Plan will be able to provide a claims feed directly to these recommended TPAs for clients selecting an HRA. This will facilitate the administration of the HRA account by streamlining the claims substantiation process.

We recommend the following TPAs to support our HRA product:
