

Tufts Health Plan Specialty Pharmacy Program – Tufts Health Direct CVS Specialty Medication List

Effective: April 1, 2021

Tufts Health Plan offers its members a specialty pharmacy program provided by CVS Specialty. Tufts Health Plan members may receive up to a 30-day supply of medications through CVS Specialty via mail order delivery. Medications provided by CVS Specialty are not covered at any other retail pharmacies (including CVS Pharmacy), other specialty pharmacies or mail order pharmacies.

Fax: 800.323.2445

Covered Medications

The following pages have a complete list of specialty medications provided by CVS Specialty. Please note that many medications included in the designated specialty pharmacy program require prior authorization.

Tufts Health Plan Designated Specialty Pharmacy Program

Tufts Health Plan continuously works to offer its members the most clinically appropriate and cost-effective services. As such, Tufts Health Plan has designated CVS Specialty to supply a select number of medications used in the treatment of complex diseases. CVS Specialty is specialized in providing these medications and is staffed with nurses, coordinators and pharmacists to provide support services to members. Medications include, but are not limited to, those used in the treatment of infertility, inflammatory conditions, multiple sclerosis, oral oncology, hepatitis C and growth hormone deficiency. Other medications may be identified and added to this program from time to time.

Specialty Medications

The following medications are available only through CVS Specialty. Inclusion on the specialty drug list does not imply coverage. Please refer to the formulary document for complete coverage information.

- abiraterone 250 mg¹
