

## Massachusetts 2023 Evidence of Coverage Amendment

The following amendment is effective for all fully-insured large group plans renewing on or after 1/1/2023. This amendment includes important information about your health care coverage under your Massachusetts health insurance plan.

### **Psychiatric Collaborative Care Services**

Effective 1/1/2023, *Tufts Health Plan* will provide coverage for evidence-based, integrated psychiatric collaborative care services used to treat both behavioral health and substance use disorders. Psychiatric collaborative care services are used to develop structured care management plans for *Members* and are provided through a primary care team that consist of a *Primary Care Provider (PCP)*, a care manager, and a psychiatric consultant. Psychiatric collaborative care services are not available through all *Primary Care Providers* and are not appropriate for all *Members*. At the *In-Network Level of Benefits*, psychiatric collaborative care services are subject to the plan's *Member Cost Sharing Amount* for office visits. Additionally, please note that psychiatric collaborative care services do not require prior approval by an *Authorized Reviewer* for coverage to apply. For more information, please contact the Member Services Department.
