

FREESTANDING MEDICAL CENTERS

The following list of Freestanding Medical Centers can be used for high-tech imaging, outpatient day surgery, and diagnostic laboratory services. You will generally pay a lower copayment when you use these types of facilities for high-tech imaging, diagnostic laboratory services or outpatient day surgery.

Tiered Provider Network: This plan includes the Tiered Provider Network called Your Choice. In this plan you may pay different levels of copayments, coinsurance, and/or deductibles depending on your plan design and the tier of the provider delivering a covered service or supply. This plan may make changes to a provider's benefit tier annually. Please visit the provider search tool at tuftshealthplan.com and click on Find a Doctor to determine the tier of providers in the Your Choice Tiered Provider Network. If you need a paper copy of the provider directory, please contact Member Services.

Shields MRI at Cape Cod Hospital and Shields MRI Wellesley are not Tier 1 facilities. Please note, the services at these locations will be subject to the highest level copayment applicable.
