Understand Your Pharmacy Benefits

NEW: Pharmacy Benefit Manager

Starting January 1, 2023, OptumRx will become Tufts Health Plan's pharmacy benefit manager (PBM) for retail, specialty and mail order services. OptumRx offers access to 67,000 community pharmacies, including CVS, as well as a state-of-the-art mail order program. Tufts Health Plan members who have pharmacy coverage will receive a new ID card with the OptumRx logo before January 1, 2023.

Your member account provides you with personalized information to better manage your health care coverage and make smart decisions about your health. Visit tuftshealthplan.com to get started.

Look up your prescriptions

We cover thousands of different medications, but if your current prescription isn't on our list talk to your doctor about switching to a covered medication.

Many medications we cover have a cost share (copayment, deductible or coinsurance) — the amount you'll be responsible for paying, depending on your plan. The Tufts Health Plan Premium 3-Tier + Low Cost Generic is divided into the following tier structure:

- Tier 1 includes most generic medications and is the lowest cost to you
- Tier 2 includes many generic and brand name medications
- Tier 3 includes the most expensive generic and brand name medications
- Low Cost Generic drug program lets members pay just \$5 for a 30-day supply of medication at the pharmacy—and just \$10 for a 90-day supply through mail order.

Check if your prescription has special requirements

If there is a "PA," "STPA," "QL" or "SP" after any of your prescriptions, talk to your provider. Refer to the "Key Terms" section of this Member Guide for full "special requirements" definitions.

Plan ahead if you take maintenance medication

Maintenance medications are drugs taken regularly for ongoing conditions, such as high blood pressure or diabetes. If you're switching from another health insurance plan to Tufts Health Plan, make sure you have enough medication on hand to cover the transition period until your new coverage with Tufts Health Plan begins.

Check your medication expiration date, refill amount, and coverage under Tufts Health Plan. If your medication is not covered, talk to your doctor about switching to an alternate maintenance medication that is covered.

Save money with mail order service

Mail order service provides the convenience of home delivery instead of going to a retail pharmacy. On some plans, your medication may be less expensive if you buy a 90-day supply through this service.

Know Your Care Options

Health care isn't one-size-fits-all. From minor cuts to a sore throat or even a blood pressure check, knowing where to seek care for your situation can save you time and money. As a Tufts Health Plan member, you and your dependents have access to a variety of options:

When to visit the Emergency Room

If you think you're having an emergency and your life is in danger, call 911 or go to the nearest emergency room. Common medical emergencies that should be treated in the emergency room include choking, heart attack or severe abdominal pain.

When to see your Primary Care Provider (PCP)

For non-urgent needs such as preventive screenings, checkups, immunizations, or chronic conditions, your PCP knows your medical history and is best suited to coordinate your care. And, they may also offer virtual health care services for even greater convenience.

When to visit an Urgent Care Center

You can stop by an urgent care center without an appointment for conditions that need immediate treatment but are not considered life-threatening. Examples include minor burns or cuts that may require stitches.

When to go to a Retail Clinic

Retail clinics such as CVS MinuteClinic® and Walgreens Healthcare Clinic are a good option when you're experiencing mild symptoms such as an ear infection or skin conditions like poison ivy, and you want a health professional to check it out without an appointment.

When to use Telehealth Virtual Care

Teladoc U.S.-based doctors are available 24/7 at no cost for most plans by phone or mobile app. You can request a virtual visit for non-emergency conditions such as upper respiratory infection or skin rash. You can also access confidential therapy and build an ongoing relationship with the provider of your choice.

When to reach out to our Tufts Health Plan Care Team

Need assistance managing a chronic condition, understanding costs related to health insurance or coordinating access to quality care? Our Care Team of registered nurses, clinical social workers and certified health coaches will answer your questions, help you navigate the health care system, and support your health and wellness goals at no cost.

Key Terms

Premium

This is the monthly cost of your health insurance coverage.

Cost share

Your out-of-pocket costs for services included within your health plan including copayments, deductibles, and coinsurance.

Copayments

A fixed dollar amount that you pay for a covered medical service, prescription or medication.

Deductible

The amount you owe or pay out-of-pocket during a coverage period (usually one year) for covered health care services before your plan begins to pay.

Coinsurance

This is a fixed percentage of costs that you pay for covered services. For example, if you have a plan with coinsurance, you may have to pay 20% of a provider's bill for your care, while Tufts Health Plan pays 80%. Coinsurance is usually something you pay after you have paid an annual deductible.

Out-of-pocket maximum

This is a limit on the total amount of cost sharing you have to pay annually for covered services. This generally includes copayments, coinsurance and deductibles. After you meet your out-of-pocket maximum, Tufts Health Plan will pay all additional covered health care costs.

In-network

Generally, this describes coverage for care that POS and PPO members receive from participating providers in the Tufts Health Plan network. In-network coverage typically costs less than out-of-network coverage. In most cases, if you have a POS plan, you need to have a referral from your primary care provider (PCP) to another participating provider in order for in-network cost sharing to apply.

Out-of-network

Out-of-network coverage applies only to POS and PPO plans. Tufts Health Plan will cover care that POS and PPO members receive from non-participating providers, but it usually costs more than in-network coverage. In addition, if you have a POS plan, you will — in most cases — have out-of-network coverage when you receive care for covered services from participating providers without your primary care provider's referral.

Tier

Medical plans often place providers and hospitals in different categories, or tiers, with different cost sharing amounts. Typically, you'll save money when you see Tier 1 providers.

Pharmacy Key Terms

Prior Authorization (PA)

The need for your provider to tell us why it is medically necessary for you to receive a covered medication or service. We consult with your doctor(s) to provide you with better health outcomes, cost savings and assure your safety. Contact the doctor who recommended the medication or service. If the doctor believes the medication or service that requires PA is necessary for your treatment, they may submit a request for coverage to Tufts Health Plan. We'll cover the medication or service if it meets our medical necessity coverage guidelines.

Step Therapy Authorization (STPA)

An authorization is an automated form of prior authorization that encourages clinically proven use of first-line therapies so that the most therapeutically appropriate and cost-effective drugs are used first, before other drugs may be covered. Some types of step therapy include requiring the use of generics before brand name drugs or preferred drugs before non-preferred brand name drugs. Check our step therapy drug list to find out which step your drug is on. If you haven't previously taken the steps we require, and your doctor believes the drug prescribed for you is necessary, your doctor may request authorization. You can check the list by visiting tuftshealthplan.com/member-rx. Click on the "View Formularies" button in the "Look Up Your Medication" box, select the drug list (formulary) for your plan and click the link to "Step Therapy Prior Authorization."

Quantity Limitation (QL)

The quantity limit for a medication that can be purchased at any one time. A common QL is a 30-day supply, which is the maximum number of units needed for 30 days based on the prescribed daily/weekly dose. You're covered for up to the quantity posted in our covered drug list. If your doctor believes you need to take more than that quantity, the doctor may submit a request for authorization.

Designated Specialty Pharmacy (SP)

A pharmacy management program that requires members to purchase selected medications from specific sources. Once your membership is effective, log in to mytuftshealthplan.com and click on "My Coverage," then "Pharmacy." Call the designated specialty pharmacy provider indicated, or contact our Member Services department to help you receive your medication without interruption.

Non-Covered (NC)

Medications that are not currently covered by us. If your provider feels you require this medication, your provider should contact us. They may submit a request for coverage to Tufts Health Plan. We will cover the medication if it meets our coverage guidelines. If the request is approved, you will be covered for your prescription.

New-to-Market Drug Evaluation (NTM)

In an effort to ensure the new-to-market prescriptions that we cover are safe, effective and affordable, we delay coverage of many new drugs until a physician specialist reviews them. If your doctor feels you need a new medication, they can contact us to request coverage.

Important Information About Your Plan

The following information refers to plans offered by Tufts Health Plan Health Care and its affiliates ("Tufts Health Plan").

When you need care

If your doctor admits you to a hospital for a test, surgery or other procedure, including admission for surgical day care, hospital representatives are responsible for notifying Tufts Health Plan on your behalf. There are a few procedures that require Tufts Health Plan's authorization, and your doctor is aware of the procedures he/she must discuss with us before they take place.

To find out where our participating doctors admit patients, visit our online directory at tuftshealthplan.com. Or you can call one of the telephone numbers at the end of this document to have one of our representatives assist you.

Tufts Health Plan requires prior authorization (prospective review of medical necessity and clinical appropriateness) for selected medications, procedures, services and items. The prior authorization process is used to verify member eligibility and facilitate the appropriate utilization of these elective, non-urgent services. Visit tuftshealthplan.com to see Prior Authorization for Care details.

When you're in the hospital, Tufts Health Plan's nurse care managers are available to work with your doctors and other providers to ensure that you receive the care you need. They may evaluate the quality and appropriateness of the services you receive, and when you no longer need hospital care, will work with your medical team to coordinate the services you need in an appropriate clinical setting (e.g., at home, or in a skilled nursing or rehabilitation facility).

In situations where Tufts Health Plan was not notified of services (e.g., when a member was unable to give insurance information to providers), a post-service review may be completed to evaluate proper use of services or to identify quality of care issues.

Appeals

You may file a complaint about a coverage decision or appeal that decision with Tufts Health Plan. For details, see your Benefit Handbook.

To access your Benefit Handbook online, log into your personal account on tuftshealthplan.com, click on More Tasks from your Member Dashboard and select View My Plan Documents under Documents. For assistance, call Member Services at (800) 462-0224.

Member confidentiality

Tufts Health Plan values individuals' privacy rights and is committed to safeguarding protected health information (PHI) and personal information (PI). To support this commitment, Tufts Health Plan has established a number of Privacy and Security policies, including those describing the administration of its privacy and security programs, requirements for staff training, and permitted uses and disclosures of PHI and PI. We may collect, use and disclose financial and medical information about you when doing business with you or with others. We do this in accordance with our privacy policies and applicable state and federal laws. Tufts Health Plan also requires its business partners who administer health care coverage to you on our behalf to protect your information in accordance with applicable state and federal laws.

Visit tuftshealthplan.com or call us for a copy of Tufts Health Plan's Notice of Privacy Practices.

Additional Benefit Details

- ¹ In the case of an emergency, call 911 or visit the nearest emergency department. Telehealth virtual health care services (provided by Teladoc®) are available to commercial members that have this benefit (not including Tufts Health Direct); cost share may apply. If you're not sure whether your plan includes Telehealth by Teladoc please ask your employer. Your regular health care providers may also offer virtual health care services to you — please contact them directly for additional details. Cost share applies.
- ² This information has been provided by the vendors and has not been independently confirmed by Tufts Health Plan. Check with your health care provider regarding any health or medical condition before beginning any new treatment, exercise, or nutrition regimen. Discounts are subject to change at any time.
- ³ Specialty clubs and studios, such as martial arts, yoga, spin and personal training centers may offer different "trial" offers. Please inquire with the owner or membership department at these centers to verify offer.
- ⁴ At participating facilities only. Discounts cannot be combined with any other promotion offered by the fitness location or trainer.
- ⁵ Savings redeemed as 8 consecutive weeks of \$25 US food credits with full planned menu purchase (avg. \$186 US/\$187 CAD) each week. Active program enrollment and eligibility status required. Valid only for new members. Valid at participating centers. Not valid at jennycraig.com. No cash value.
- ⁶ Programs described are for all Tufts Health Plan commercial members, excluding Tufts Health Direct.
- ⁷ HCS does not place any restrictions on members utilizing the discount program, however, health plan coverage for such products and services may vary by plan. Members not eligible for plan coverage may leverage favorable HCS discounts for hearing care services and products.
- ⁸ Hearing care services and products coverage varies by plan. If covered, copay or other cost share may apply and referrals may be required.
- ⁹ Hearing care services and products coverage varies by plan and may include frequency limitations. If covered, copay or other cost-share may apply.
- ¹⁰ Up to 64 cells per ear, per year. A supply of batteries is only available for non-rechargeable hearing aid models.

Discrimination is Against the Law

Tufts Health Plan complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, sex, sexual orientation, or gender identity. Tufts Health Plan does not exclude people or treat them differently because of race, color, national origin, age, disability, sex, sexual orientation or gender identity.

Tufts Health Plan:
