☑ Tufts Health RITogether – A Rhode Island Medicaid Plan; Fax: 857.304.6404
☑ Tufts Health Unify* – OneCare Plan (a dual-eligible product); Fax: 781.393.2607
*The MNG applies to Tufts Health Unify members unless a less restrictive LCD or NCD exists.

SENIOR Products
• Tufts Health Plan Senior Care Options (SCO), (a dual-eligible product) – Refer to the Tufts Health Plan SCO Prior Authorization List
• Tufts Medicare Preferred HMO, (a Medicare Advantage product) – Refer to the Tufts Medicare Preferred HMO Prior Authorization and Inpatient Notification List

Note: While you may not be the provider responsible for obtaining prior authorization, as a condition of payment you will need to make sure that prior authorization has been obtained.

OVERVIEW
Tufts Health Plan utilizes this medical necessity guideline for the review of all non-emergency ground ambulance transportation. Ground ambulance transportation is defined as ambulance services provided by a motor vehicle over roadways.

CLINICAL COVERAGE CRITERIA
Tufts Health Plan may cover non-emergency, basic or advanced life support, ground ambulance transportation when all of the following criteria are met:
• The medical condition of the Member prevents safe transportation by any other means.
• The transportation is for the transport to and/or from medically necessary care.
• The Member’s condition prohibits other forms of transportation.
  - The Member is bed confined. (This is defined as: unable to get out of bed without assistance, unable to ambulate, and unable to sit in a chair or wheelchair.)

OR
  - Other means of transportation is contraindicated for medical reasons. Examples include but are not limited to the following:
    a. The Member cannot safely sit upright while seated in a wheelchair.
    b. The Member can tolerate a wheelchair, but is medically unstable.
    c. The Member requires oxygen and oxygen saturation level monitoring, in the absence of a portable oxygen system, to treat hypoxemia, syncope, airway obstruction and/or chest pain.
    d. The Member requires skilled/trained monitoring during transport for the following:
      e. The Member is comatose.
      f. The Member requires airway monitoring.
      g. The Member requires cardiac monitoring.
      h. The Member is dependent on a ventilator.
LIMITATIONS

- Tufts Health Plan will not cover chair car or wheelchair van transportation.
- Tufts Health Plan will not cover an ambulance when an alternative means of transportation other than an ambulance could be utilized without endangering the Member’s health, whether or not such other transportation is available or is a covered benefit.
- Tufts Health Plan will not cover transportation for the purpose of receiving an excluded or non-covered service.

CODES

The following HCPCS codes may be subject to retrospective review for medical necessity:

Background, Product and Disclaimer Information

Medical Necessity Guidelines are developed to determine coverage for benefits, and are published to provide a better understanding of the basis upon which coverage decisions are made. We make coverage decisions using these guidelines, along with the Member’s benefit document, and in coordination with the Member’s physician(s) on a case-by-case basis considering the individual Member’s health care needs.

Medical Necessity Guidelines are developed for selected therapeutic or diagnostic services found to be safe and proven effective in a limited, defined population of patients or clinical circumstances. They include concise clinical coverage criteria based on current literature review, consultation with practicing physicians in our service area who are medical experts in the particular field, FDA and other government

2  Non-Emergency Ambulance Transportation – Ground
agency policies, and standards adopted by national accreditation organizations. We revise and update Medical Necessity Guidelines annually, or more frequently if new evidence becomes available that suggests needed revisions.

For self-insured plans, coverage may vary depending on the terms of the benefit document. If a discrepancy exists between a Medical Necessity Guideline and a self-insured Member’s benefit document, the provisions of the benefit document will govern.

Treating providers are solely responsible for the medical advice and treatment of Members. The use of this guideline is not a guarantee of payment or a final prediction of how specific claim(s) will be adjudicated. Claims payment is subject to eligibility and benefits on the date of service, coordination of benefits, referral/authorization, utilization management guidelines when applicable, and adherence to plan policies, plan procedures, and claims editing logic.
