### OVERVIEW

#### FOOD AND DRUG ADMINISTRATION-APPROVED INDICATIONS

Epinephrine auto-injectors are indicated in the emergency treatment of allergic reactions (Type 1) including anaphylaxis.

### COVERAGE GUIDELINES

The plan may authorize coverage of a non-preferred epinephrine auto-injector for Members when the following criterion is met:

1. The Member has tried and failed, or the provider indicates inappropriateness to all available generic epinephrine auto-injectors

### LIMITATIONS

1. Coverage of epinephrine auto-injectors will be limited to two auto-injectors per prescription.

### CODES

None

### REFERENCES

1. Adrenaclick (epinephrine) [prescribing information]. Horsham, PA; Amedra; October 2014.
2. Auvi-Q (epinephrine) [package insert]. Richmond, VA: Kaleo; September 2019.
3. EpiPen and EpiPen Jr (epinephrine) [package insert]. Morgantown, WV: Mylan Specialty L.P.; August 2018.

### APPROVAL HISTORY

January 13, 2015: Reviewed by Pharmacy & Therapeutics Committee.

Subsequent endorsement date(s) and changes made:

1. January 1, 2016: Administrative change to rebranded template.
2. March 8, 2016: Removed Adrenalin<sup>®</sup> from the criteria because it was not included in the epinephrine auto-injector prior authorization program. Extended the approval duration to life of plan.
3. March 14, 2017: Updated criteria to require that provider must indicate clinical inappropriateness to all available generic epinephrine auto-injectors.
4. May 9, 2017: Administrative update, Adding Tufts Health RITogether to the template.
5. April 10, 2018: No changes.
6. April 9, 2019: Administrative changes made to template.
7. March 10, 2020: No changes.

## **BACKGROUND, PRODUCT AND DISCLAIMER INFORMATION**

Pharmacy Medical Necessity Guidelines have been developed for determining coverage for plan benefits and are published to provide a better understanding of the basis upon which coverage decisions are made. The plan makes coverage decisions on a case-by-case basis considering the individual member's health care needs. Pharmacy Medical Necessity Guidelines are developed for selected therapeutic classes or drugs found to be safe, but proven to be effective in a limited, defined population of patients or clinical circumstances. They include concise clinical coverage criteria based on current literature review, consultation with practicing physicians in the service area who are medical experts in the particular field, FDA and other government agency policies, and standards adopted by national accreditation organizations. The plan revises and updates Pharmacy Medical Necessity Guidelines annually, or more frequently if new evidence becomes available that suggests needed revisions.

For self-insured plans, coverage may vary depending on the terms of the benefit document. If a discrepancy exists between a Pharmacy Medical Necessity Guideline and a self-insured Member's benefit document, the provisions of the benefit document will govern.

Treating providers are solely responsible for the medical advice and treatment of members. The use of this policy is not a guarantee of payment or a final prediction of how specific claim(s) will be adjudicated. Claims payment is subject to member eligibility and benefits on the date of service, coordination of benefits, referral/authorization and utilization management guidelines when applicable, and adherence to plan policies and procedures and claims editing logic.
