Note: This guideline does not apply to Medicare Members (includes dual eligible Members).

OVERVIEW

FDA-APPROVED INDICATIONS

Pregabalin (Lyrica) is indicated for:

- Management of neuropathic pain associated with diabetic peripheral neuropathy (DPN)
- Management of postherpetic neuralgia
- Adjunctive therapy for adult patients with partial onset seizures
- Management of fibromyalgia
- Management of neuropathic pain associated with spinal cord injury

Pregabalin extended-release (Lyrica CR) is indicated for:

- Neuropathic pain associated with diabetic peripheral neuropathy (DPN)
- Postherpetic neuralgia

Lyrica CR should be administered once daily after an evening meal. It should be swallowed whole and should not be split, crushed, or chewed. Efficacy of Lyrica CR has not been established for the management of fibromyalgia or as adjunctive therapy for adult patients with partial onset seizures.

There is a risk of serious breathing difficulties that can lead to death in patients who use gabapentinoids with opioid pain medicines or other drugs that depress the central nervous system, or those who have underlying respiratory impairment, such as patients with chronic obstructive pulmonary disease or the elderly.

PEDIATRIC BEHAVIORAL HEALTH MEDICATION INITIATIVE (PBHMI)

Some anticonvulsants are used as mood stabilizers for behavioral health purposes. The MassHealth Pediatric Behavioral Health Medication Initiative (PBHMI) has been implemented to encourage safe prescribing of behavioral health medication regimens in Members less than 18 years of age. As part of PBHMI, a prior authorization is required for pediatric Members less than six years of age who are being prescribed a mood stabilizer, regardless as to whether or not the mood stabilizer is preferred on the Plan's formulary. In addition to the medication-specific criteria listed below for Lyrica, age-specific criteria must be met for members less than 6 years of age.

COVERAGE GUIDELINES

AGE-SPECIFIC CRITERIA

In addition to the medication-specific prior authorization criteria, the plan may authorize coverage of pregabalin (Lyrica) and pregabalin extended-release (Lyrica CR) for members **less than 6 years of age** when the following criteria are met and limitations do not apply:

1. Member has one of the following:
 - a. Recent psychiatric hospitalization (within the last three months)

- b. History of severe risk of harm to self or others
 - c. Seizure diagnosis only
- OR**
- 2. Member has all of the following:
 - a. An appropriate diagnosis
- OR**
- b. Treatment plan, including names of current behavioral health medications and corresponding indications
- AND**
- c. Prescriber is a specialist (e.g., neurologist, psychiatrist) or a consult is provided

MEDICATION-SPECIFIC CRITERIA

Lyrica (pregabalin)

The plan may authorize coverage of pregabalin (Lyrica) for Members when **all** the following criteria for a particular condition are met and limitations do not apply. **If the Member is less than 6 years of age, the above age-specific criteria must be met before applying the medication-specific criteria listed below:**

- 1. The Member meets one of the following conditions:
 - a) The Member has a diagnosis of fibromyalgia

AND

 - b) The Member tried and failed therapy with, or the Member has a contraindication to, at least two medications from different therapeutic classes: an antidepressant, the fibromyalgia agent milnacipran, or an anticonvulsant

OR

 - a) The Member has a diagnosis of partial-onset seizures

AND

 - b) The Member tried and failed therapy with, or the Member has a contraindication to at least two alternative anticonvulsant medications

OR

 - a) The Member has a diagnosis of pain (e.g. postherpetic neuralgia, diabetic peripheral neuropathy, neuropathic pain associated with spinal cord injury)

AND

 - b) The Member tried and failed therapy with, or the Member has a contraindication to gabapentin and at least one other treatment option: an antidepressant, an anticonvulsant, lidocaine patch

Lyrica CR (pregabalin extended-release)

The plan may authorize coverage of pregabalin extended-release (Lyrica CR) for Members when **all** of the following criteria are met and limitations do not apply. **If the Member is less than 6 years of age, the age-specific criteria for members less than 6 years of age must be met before applying the medication-specific criteria listed below:**

- 1. The Member has a diagnosis of either postherpetic neuralgia or diabetic peripheral neuropathy
- AND**
- 2. The Member tried and failed therapy with, has a contraindication to, or clinical inappropriateness of treatment with all of the following:
 - a) Gabapentin
 - b) Lyrica immediate release
 - c) One of the following other treatment options: an antidepressant, an anticonvulsant, or lidocaine patch

LIMITATIONS

- 1. The coverage of Lyrica (pregabalin immediate release) is limited to 3 capsules per day or 30 ml per day.

2. The coverage of Lyrica CR (pregabalin extended-release) is limited to 1 capsule per day.
3. Requests for seizure diagnosis will be approved for life of plan.
4. Requests for non-seizure diagnoses will be approved for 1 year; subsequent approval will require the Member had an office visit and was re-assessed for this condition within the past year.
5. Requests for brand-name products, with AB-rated generics, will also be reviewed according to the Brand name criteria.
6. Requests for Lyrica and Lyrica CR in which the Pediatric Behavioral Health Medication Initiative (PBHMI) polypharmacy limits are exceeded will also be reviewed against the PBHMI polypharmacy criteria.

APPROVAL HISTORY

June 4, 2014: Reviewed by Pharmacy & Therapeutics Committee.

Subsequent endorsement date(s) and changes made:

1. June 9, 2015: Approval duration modified to 1 year.
2. January 1, 2016: Administrative change to rebranded template.
3. September 13, 2016: Added age-limit criteria for Members less than 6 years of age.
4. February 14, 2017: Removed "quantities that exceed the quantity limit will be reviewed according to the Drugs w/ Quantity Limitations criteria" from the Medical Necessity Guideline.
5. May 9, 2017: Administrative update, Adding Tufts Health RITogether to the template
6. February 13, 2018: Added criteria and quantity limit for Lyrica CR.
7. February 12, 2019: Administrative changes made to template. Updated length of approval for seizure diagnosis to life of plan. Added neuropathic pain associated with spinal cord injury as an example of an approvable pain diagnosis. For non-seizure diagnoses, renewal criteria were updated to require reassessment within the past year.
8. January 14, 2020: Administrative update, updated the limitations section to indicate that requests for brand-name products with AB-rated generics will also be reviewed against the Brand Name criteria. Specified that the PBHMI age-limit criteria apply to Lyrica CR. Added to the limitations section that requests for members who exceed the PBHMI polypharmacy limits will be reviewed against the PBHMI polypharmacy criteria.
9. January 12, 2021: Administrative update, updated the quantity limit for pregabalin capsules in the limitations section of the MNG.

BACKGROUND, PRODUCT AND DISCLAIMER INFORMATION

Pharmacy Medical Necessity Guidelines have been developed for determining coverage for plan benefits and are published to provide a better understanding of the basis upon which coverage decisions are made. The plan makes coverage decisions on a case-by-case basis considering the individual member's health care needs. Pharmacy Medical Necessity Guidelines are developed for selected therapeutic classes or drugs found to be safe, but proven to be effective in a limited, defined population of patients or clinical circumstances. They include concise clinical coverage criteria based on current literature review, consultation with practicing physicians in the service area who are medical experts in the particular field, FDA and other government agency policies, and standards

adopted by national accreditation organizations. The plan revises and updates Pharmacy Medical Necessity Guidelines annually, or more frequently if new evidence becomes available that suggests needed revisions.

For self-insured plans, coverage may vary depending on the terms of the benefit document. If a discrepancy exists between a Pharmacy Medical Necessity Guideline and a self-insured Member's benefit document, the provisions of the benefit document will govern.

Treating providers are solely responsible for the medical advice and treatment of members. The use of this policy is not a guarantee of payment or a final prediction of how specific claim(s) will be adjudicated. Claims payment is subject to member eligibility and benefits on the date of service, coordination of benefits, referral/authorization and utilization management guidelines when applicable, and adherence to plan policies and procedures and claims editing logic.
