Note: This guideline does not apply to Medicare Members (includes dual eligible Members).

OVERVIEW

Available topical antiviral agents Food and Drug Administration (FDA)-approved for the treatment of herpes labialis (cold sores) are herpes simplex virus nucleoside analogue DNA polymerase inhibitors. Both brand and generic options are available.

FOOD AND DRUG ADMINISTRATION-APPROVED INDICATIONS

Denavir (penciclovir) 1% cream is indicated for the treatment of recurrent herpes labialis (cold sores) in adults and children 12 years of age and older.

Zovirax (acyclovir) 5% cream is indicated for the treatment of recurrent herpes labialis (cold sores) in immunocompetent adults and adolescents 12 years of age and older.

COVERAGE GUIDELINES

The plan may authorize coverage of a non-preferred topical antiviral agent for Members when **all** of the following criteria are met:

1. The Member is 12 years of age or older

AND

2. Documented diagnosis of diagnosis of recurrent herpes labialis

AND

3. Documentation the Member has tried and failed, or the provider indicates inappropriateness to two different oral antiviral agents

LIMITATIONS

None

CODES

None

4. May 9, 2017: Administrative update, Adding Tufts Health RITogether to the template
5. May 8, 2018: No changes.
6. April 9, 2019: Administrative changes made to template.
7. April 14, 2020: No changes.

BACKGROUND, PRODUCT AND DISCLAIMER INFORMATION

Pharmacy Medical Necessity Guidelines have been developed for determining coverage for plan benefits and are published to provide a better understanding of the basis upon which coverage decisions are made. The plan makes coverage decisions on a case-by-case basis considering the individual member's health care needs. Pharmacy Medical Necessity Guidelines are developed for selected therapeutic classes or drugs found to be safe, but proven to be effective in a limited, defined population of patients or clinical circumstances. They include concise clinical coverage criteria based on current literature review, consultation with practicing physicians in the service area who are medical experts in the particular field, FDA and other government agency policies, and standards adopted by national accreditation organizations. The plan revises and updates Pharmacy Medical Necessity Guidelines annually, or more frequently if new evidence becomes available that suggests needed revisions.

For self-insured plans, coverage may vary depending on the terms of the benefit document. If a discrepancy exists between a Pharmacy Medical Necessity Guideline and a self-insured Member's benefit document, the provisions of the benefit document will govern.

Treating providers are solely responsible for the medical advice and treatment of members. The use of this policy is not a guarantee of payment or a final prediction of how specific claim(s) will be adjudicated. Claims payment is subject to member eligibility and benefits on the date of service, coordination of benefits, referral/authorization and utilization management guidelines when applicable, and adherence to plan policies and procedures and claims editing logic.
