

## Pharmacy Medical Necessity Guidelines: Thrombopoietin Receptor Agonists

Effective: November 1, 2023

Prior Authorization Required	√	Type of Review – Care Management	
Not Covered		Type of Review – Clinical Review	√
Pharmacy (RX) or Medical (MED) Benefit	RX	Department to Review	RXUM
These pharmacy medical necessity guidelines apply to the following:		<b>Fax Numbers:</b>	
<input checked="" type="checkbox"/> Tufts Health RITogether – A Rhode Island Medicaid Plan		RXUM: 617.673.0988	

**Note:** For Tufts Health Plan Medicare Preferred Members, please refer to the Tufts Health Plan Medicare Preferred Prior Authorization Criteria. Background, applicable product and disclaimer information can be found on the last page.

### OVERVIEW

Doptelet (avatrombopag) is a thrombopoietin receptor agonist indicated for the treatment of:

- Thrombocytopenia in adult patients with chronic liver disease who are scheduled to undergo a procedure
- Thrombocytopenia in adult patients with chronic immune thrombocytopenia who have had an insufficient response to a previous treatment

Mulpleta (lusutrombopag) is a thrombopoietin receptor agonist indicated for the treatment of thrombocytopenia in adult patients with chronic liver disease who are scheduled to undergo a procedure.

Tavalisse (fostamatinib disodium hexahydrate) is a kinase inhibitor indicated for the treatment of adult patients with chronic immune thrombocytopenia who have had an insufficient response to a previous treatment.

### COVERAGE GUIDELINES

#### Thrombocytopenia in Chronic Liver Disease

The plan may authorize coverage of **Doptelet** or **Mulpleta** for members when all of the following criteria are met:

1. Documented diagnosis of severe thrombocytopenia as indicated by a baseline platelet count less than 50,000/mcL  
**AND**
2. The patient is at least 18 years of age  
**AND**
3. Documentation the patient has chronic liver disease  
**AND**
4. Documentation the patient is scheduled to undergo a medical procedure  
**AND**
5. Prescribed by or in consultation with an appropriate specialist (e.g. hematologist, oncologist, immunologist, hepatologist, transplant specialist)  
**AND**
6. For Mulpleta, documented trial and failure or contraindication to Doptelet

## Immune Thrombocytopenia

The plan may authorize **Doptelet or Tavalisse** for patients when all of the following criteria are met:

1. Documented diagnosis of immune thrombocytopenia  
**AND**
2. The patient is 18 years of age or older  
**AND**
3. Prescribed by or in consultation with an appropriate specialist (e.g., hematologist, oncologist, immunologist, hepatologist, transplant specialist)  
**AND**
4. Documentation of **one (1)** of the following:
  - a. Baseline platelet count is less than 30,000/mcL
  - b. Medical necessity for platelet evaluation (e.g., upcoming surgery, peptic ulcer disease or condition that may predispose patient to bleeding)**AND**
5. Documented insufficient response or contraindication to **ALL** of the following:
  - a. Splenectomy
  - b. Corticosteroids
  - c. Immunoglobulins
  - d. Rituxan (rituximab)
  - e. Thrombopoietin receptor agonist (i.e., Promacta, Nplate)

### LIMITATIONS

1. Doptelet and Mulpleta for thrombocytopenia or chronic liver disease will be approved for a duration of one month for a one-time fill.

### CODES

None

### APPROVAL HISTORY

September 13, 2022: Reviewed by Pharmacy & Therapeutics Committee.

Subsequent endorsement date(s) and changes made:

1. August 8, 2023: For Chronic Liver Disease, added provider requirements and a step through Doptelet if the requested medication is Mulpleta. For Immune Thrombocytopenia, added Tavalisse to the Medical Necessity Guideline, removed reauthorization criteria, added additional requirements surrounding prerequisite therapies, and updated baseline platelet count requirements. (effective 11/1/2023).

**BACKGROUND, PRODUCT AND DISCLAIMER INFORMATION**

Pharmacy Medical Necessity Guidelines have been developed for determining coverage for plan benefits and are published to provide a better understanding of the basis upon which coverage decisions are made. The plan makes coverage decisions on a case-by-case basis considering the individual member's health care needs. Pharmacy Medical Necessity Guidelines are developed for selected therapeutic classes or drugs found to be safe, but proven to be effective in a limited, defined population of patients or clinical circumstances. They include concise clinical coverage criteria based on current literature review, consultation with practicing physicians in the service area who are medical experts in the particular field, FDA and other government agency policies, and standards adopted by national accreditation organizations. The plan revises and updates Pharmacy Medical Necessity Guidelines annually, or more frequently if new evidence becomes available that suggests needed revisions.

For self-insured plans, coverage may vary depending on the terms of the benefit document. If a discrepancy exists between a Pharmacy Medical Necessity Guideline and a self-insured Member's benefit document, the provisions of the benefit document will govern.

Treating providers are solely responsible for the medical advice and treatment of members. The use of this policy is not a guarantee of payment or a final prediction of how specific claim(s) will be adjudicated. Claims payment is subject to member eligibility and benefits on the date of service, coordination of benefits, referral/authorization and utilization management guidelines when applicable, and adherence to plan policies and procedures and claims editing logic.
