

The Quick Reference Guide for Online Claim Adjustments contains general guidelines, helpful hints and instructions on submitting corrected claims, provider payment disputes and returning funds to Tufts Health Plan using the [secure Provider website](#).

Note: Tufts Health Plan’s Provider Dispute Policies are available in the [Resource Center](#) on the public Provider website.

Overview

Registered users can submit claim adjustments using the [secure Provider website](#). If you are not registered for secure access to the secure Provider website, you can register [here](#).

Registered users can:

- Adjust claims, including changing provider and payee ID numbers, procedure and diagnosis codes, billed amounts, modifiers and member information
- Submit payment disputes by filling out an electronic form including rationale for the request, the ability to attach electronic documents for paperless submission or the option to submit documents by mail
- Return funds by selecting either a claim refund via check or a claim refund via a retraction from future claims payments

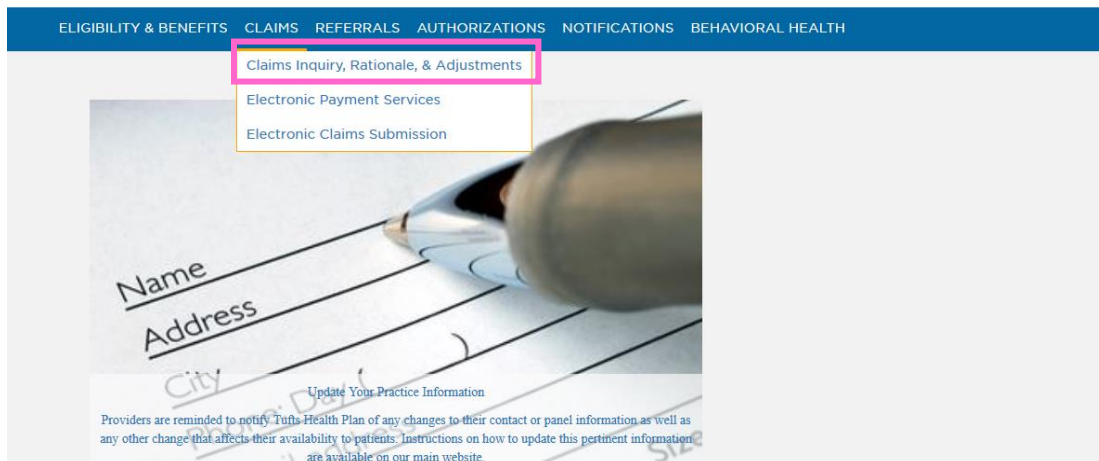

Online claim adjustment is not available for claims under the following products:

- CareLinkSM when Cigna is primary administrator
- CareLinkSM – Shared administration
- Tufts Health Public Plans

Note: Some claims may not be adjustable online. If your claim cannot be adjusted online, a message will appear indicating the claim is not adjustable.

If you would like to send paper documents, refer to the instructions in Tufts Health Plan’s Provider Dispute Policies, which are available in the [Resource Center](#) on Tufts Health Plan’s public Provider website. Mailed submissions must include a “tracking sheet” (i.e., confirmation page) on top of any documents that are being mailed to support an online claim adjustment request. **Do not** attach a Provider Payment Dispute form to documents that support an online claim adjustment.

Note: You may elect to submit documents both electronically and by mail.

- Review the information you entered in the **Adjustment Comments** box, and confirm that you have selected a method to submit supporting documents. Once this is complete, click **Submit**.
- Once you have submitted the dispute request, a confirmation page displays your tracking number for the dispute.

Note: If you are mailing supporting documents, print the confirmation page and attach it as a tracking sheet.

Follow up on a Submitted Adjustment Request

All online claim adjustment requests can be viewed in the claim detail page within the **Claims Inquiry, Rationale, & Adjustments** section of the secure Provider website. This information can be used to track the progress of a submitted request. Using the **Claims Inquiry, Rationale, & Adjustments** section, locate the claim for which an adjustment request was made. The Status category and code will update as the submission is processed.

Note: A sort filter is available to assist with follow-up on adjustment requests. The filter allows users to view results in ascending or descending order for claims with an adjustment request.
