

## Tufts Health Plan’s Guide to Tiered Network Plans for Hospitals and Professionals

Are you or is your hospital in Tier 1, Tier 2, or Tier 3? The answer may be different depending on the member’s plan. With Tufts Health Plan’s tiered provider network plans, members pay different copayments, coinsurance and/or deductibles based on their plan design and the tier of the provider or hospital. Members’ ID cards will indicate their cost share for each tier. Copayment amounts are available by logging onto the Eligibility and Benefits Tool on the secure Provider [portal](#).
