Immunization Payment Policy

Applies to the following Tufts Health Plan products:

☒ Tufts Health Plan Commercial (including Tufts Health Freedom Plan)
☒ Tufts Medicare Preferred HMO (a Medicare Advantage product)
☒ Tufts Health Plan Senior Care Options (SCO) (a dual-eligible product)

The following payment policy applies to Tufts Health Plan contracting providers who render professional services in an outpatient or office setting, and to ancillary providers who administer immunizations according to their provider agreement.

In addition to the specific information contained in this policy, providers must adhere to the information outlined in the Professional Services and Facilities Payment Policy.

Note: Audit and disclaimer information is located at the end of this document.

GENERAL BENEFIT INFORMATION

Tufts Health Plan covers medically necessary immunization services, in accordance with the member’s benefit. Tufts Health Plan complies with federal and state guidelines for vaccines. Refer to the departments of public health for Massachusetts, Rhode Island, and New Hampshire for information on immunizations and vaccines, as well as information on any vaccine shortages.

Services and subsequent payment are pursuant to the member’s benefit plan document. Member eligibility and benefit specifics should be verified prior to initiating services by logging on to the secure Provider website or by contacting Commercial Provider Services or Senior Products Provider Relations.

Note: There is no member responsibility for covered services for Tufts Health Plan SCO members.

Preventive Services (Commercial products only)
The Patient Protection and Affordable Care Act (commonly referred to as Federal Health Care Reform) requires all Tufts Health Plan products to provide 100% coverage for preventive care services. Grandfathered groups are not subject to this requirement, but many have opted to cover preventive services with no cost sharing. For a list of immunizations that are considered preventive in nature, refer to the Preventive Services List.

Tufts Medicare Preferred HMO/Tufts Health Plan SCO products only

Vaccine Coverage
Some vaccines are covered under Part B and others are covered under Part D. When vaccines are covered under Part D, the administration costs are reimbursed under Medicare Part D. The information below clarifies the Medicare Part B and Part D coverage for vaccines. Refer to CMS’ Preventive Services for more information.

Part B vaccines include but are not limited to influenza, pneumonia and Hepatitis B (when members are at moderate to high risk). Providers must administer the vaccine and then submit a medical claim form to Tufts Health Plan.

Part D vaccines may be obtained by the following methods:

- **Prescription:** Providers give members a prescription or call the prescription into the pharmacy directly. The member then picks up the prescription from the pharmacy, pays the appropriate cost share (if applicable), and brings the vaccine to the appointment for administration.

---

1 Commercial products include HMO, POS, PPO, Tufts Health Freedom Plan, and CareLinkSM when Tufts Health Plan is the primary administrator.
Certified pharmacists may also administer vaccines at local retail network pharmacies with a prescription. The member pays the appropriate cost share (if applicable) and the pharmacist processes the claim through the CVS Caremark claim system.

- "Buy & Bill": an alternative process for all vaccines covered under Part D (Tufts Health Plan handles all vaccines that are covered under Medicare Part D).
- Member Reimbursement: the member receives the vaccine from the provider, pays the provider for the immunization, and then submits a member reimbursement request to CVS Caremark for reimbursement.
  Note: To avoid placing an undue financial burden on the member, this is not the preferred method of obtaining payment for the vaccine.

**FLU VACCINES**
Tufts Health Plan compensates for the flu vaccine as part of a member’s provider office visit.

**Flu Vaccines Obtained at a Pharmacy**
As part of the CVS Flu Shot Program, Tufts Health Plan members are covered to receive the flu vaccines during flu season (September through March) at CVS/pharmacy locations in Massachusetts, Rhode Island and New Hampshire, as well as CVS MinuteClinics located in Massachusetts, New Hampshire, Rhode Island, Connecticut and New York. Refer to the Flu Shots preventive care guidelines for more information.

**State-Specific Age Limitations**
CVS/pharmacy locations in the following states are subject to certain age limits when administering the flu vaccine:

- Massachusetts and Rhode Island: may administer the flu vaccine to members 18 years of age and older
- New Hampshire: may administer the flu vaccine to members 9 years of age or older
- Connecticut: may administer the flu vaccine to members 5 years of age or older

**BILLING INSTRUCTIONS**
Submit the vaccine/toxoid code(s) with the appropriate administration code(s) on the same date of service. If an administration procedure code is billed without a vaccine/toxoid procedure code, the administration line will deny.

- **Commercial claims**: append the SL modifier to the vaccine/toxoid code if it was state-supplied
- **Tufts Medicare Preferred HMO/Tufts Health Plan SCO claims**: do not append the SL modifier to the vaccine-toxoid code, even if it was state-supplied

**Non-State-Supplied Vaccines**: Charges for the vaccine/toxoid procedure code(s) must be billed on the claim line(s) with the vaccine/toxoid and the administration procedure code(s), respectively.

**Commercial products**

**Unavailable Drugs**
Tufts Health Plan has identified a number of specific drugs, vaccines and other products that are commercially unavailable, according to industry sources. These include drugs and vaccines that were discontinued due to decreased usage or the introduction of a newer drug/vaccine. In some cases, only certain doses and dosage forms or specific combinations were discontinued. Tufts Health Plan will deny compensation for CPT/HCPCS codes associated with these unavailable drugs. To be considered for compensation, providers must resubmit the appropriate current procedure code(s). Refer to the List of Unavailable Vaccines and Drugs for drugs identified as unavailable.

**Tufts Medicare Preferred HMO/Tufts Health Plan SCO products**

**Direct Claim Submission to CVS Caremark**
If a provider dispenses and/or administers a vaccine in the office that is covered under Medicare Part D, the provider should submit a CMS-1500 form to CVS Caremark, including the drug name, National Drug Code (NDC) number, and administration code for each vaccine administered. Claims may be submitted to Caremark Medicare Vaccine Processing, P.O. Box 52193 Phoenix, AZ 85072-2193.
**COMPENSATION/REIMBURSEMENT INFORMATION**

**Non-State-Supplied Vaccines**
Non-state-supplied vaccines/toxoids purchased by the provider will be compensated according to the Tufts Health Plan fee schedule for both the vaccine/toxoid CPT procedure code(s) and the administration CPT procedure code(s).

**Pneumococcal Vaccinations**
Effective for dates of service on or after January 1, 2018, Tufts Health Plan does not routinely compensate pneumococcal vaccine (90670, 90732) if billed by any provider and the same code has been previously billed in the member’s lifetime.

**Vaccines Purchased by the Provider**
Tufts Health Plan does not routinely compensate state-supplied vaccines and immunizations. However, in the rare instance that a provider must purchase a vaccine that is typically state-supplied (e.g., in the event of a shortage), compensation will be made according to the Tufts Health Plan fee schedule.

**Commercial products only**

**Human Papillomavirus Vaccine**
Tufts Health Plan compensates 90649 (Human Papilloma virus [HPV] vaccine, types 6, 11, 16, 18 [quadrivalent], 3-dose schedule, for intramuscular use) if billed for members who are aged 9 to 26 on the date of service.

**Subcutaneous or Intramuscular Injection**
Tufts Health Plan does not routinely compensate for subcutaneous or intramuscular injection codes if billed with administration of vaccines and toxoids, as the subcutaneous or intramuscular injection code is inappropriate to use for the administration of vaccines and toxoids. Refer to the AMA CPT Manual for additional information.

**Tufts Medicare Preferred HMO/Tufts Health Plan SCO products only**

**Direct Claim Submission to CVS Caremark**
CVS Caremark processes Part D claims and returns reimbursement to the provider with an explanation of payment, including applicable member cost share for collection. CVS Caremark will process vaccine claims within the standard Medicare Part D time frame (normally within 30 calendar days).

**ADDITIONAL RESOURCES**
Clinical Programs: Adult Immunization Program

**DOCUMENT HISTORY**
- October 2018: Policy reviewed by committee; added existing vaccine information previously located in the Commercial Provider Manual; added links to DPH sites for individual states; clarified age restrictions for CVS locations offering flu vaccines
- June 2018: Template updates
- November 2017: Added edits for pneumococcal vaccine, effective for dates of service on or after January 1, 2018
- January 2017: Policy reviewed; template updates; combined Commercial and Tufts Medicare Preferred HMO/Tufts Health Plan SCO policies
- September 2015: Template conversion, template updates
- May 2013: Template conversion
- January 2013: Template updates
- November 2012: Added billing information for unavailable drugs for January 1, 2013
- July 2012: Policy reviewed; added information for flu vaccines administered at pharmacy locations and ancillary contract information effective August 1, 2012; template updates
- April 2012: Template updates.
- March 2012: Updated CareLink disclaimer language
- October 2011: Removed H1N1 information, as it no longer applies
- January 2011: Added new codes 90460 and 90461; removed deleted codes 90465-90468
- November 2012: Added edits for pneumococcal vaccine, effective for dates of service on or after January 1, 2018
- January 2013: Template updates
- November 2012: Added billing information for unavailable drugs for January 1, 2013
- July 2012: Policy reviewed; added information for flu vaccines administered at pharmacy locations and ancillary contract information effective August 1, 2012; template updates
- April 2012: Template updates.
- March 2012: Updated CareLink disclaimer language
- October 2011: Removed H1N1 information, as it no longer applies
- January 2011: Added new codes 90460 and 90461; removed deleted codes 90465-90468
- September 2010: Revised H1N1 information; added information regarding Preventive Services.
- February 2010: Removed the word ‘females’ from the HPV information and replaced with ‘members’.

---

2 Tufts Health Plan’s Fraud Prevention and Recovery Department may conduct audits on state-supplied vaccines that are reimbursed at the fee schedule.
Immunization Payment Policy

- November 2009: Added link to Immunization Tufts Medicare Preferred policy.
- September 2009: Added H1N1 vaccine information.
- June 2009: Added HPV and add-on code information.
- December 2008: Updated the vaccines and toxoids CPT procedure code range
- November 2008: Added that effective for claims adjudicated on or after February 1, 2009, Tufts Health Plan reimbursement guidelines for subcutaneous or intramuscular injection code
- February 2008: Revised general benefit information with self-service channels information.

AUDIT AND DISCLAIMER INFORMATION

Tufts Health Plan reserves the right to conduct audits on any provider and/or facility to ensure compliance with the guidelines stated in this payment policy. If such an audit determines that a provider/facility did not comply with this payment policy, Tufts Health Plan will expect the provider/facility to refund all payments related to noncompliance. For more information about Tufts Health Plan’s audit policies, refer to the Provider website.

This policy provides information on Tufts Health Plan claims adjudication processes. As every claim is unique, this policy is neither a guarantee of payment, nor a final indication of how specific claim(s) will be adjudicated. Claims payment is subject to member eligibility and benefits on the date of service, coordination of benefits, referral/authorization and utilization management requirements (when applicable), adherence to plan policies and procedures, and claims editing logic. An authorization is not a guarantee of payment. Claims for services subject to authorization may be reviewed for accuracy and compliance with payment policies.

This policy applies to the Tufts Health Plan products, as identified in the checkboxes on the first page, and to CareLink℠ for providers in Massachusetts and Rhode Island service areas. Providers in the New Hampshire service area are subject to Cigna’s provider agreements with respect to CareLink members. This policy does not apply to the Private Health Care Systems (PHCS) network (also known as Multiplan). Tufts Health Plan reserves the right to amend a payment policy at its discretion.
