Impacted Tooth Removal

Members are covered for the surgical removal of impacted or unerupted teeth embedded in bone when performed by an oral surgeon in an office setting.

Coverage includes removal of up to four impacted or unerupted teeth per visit, x-rays, and the use of anesthesia without prior authorization in an office setting. Members who require this procedure to be performed in an inpatient or surgical day care (SDC) setting must follow existing prior authorization and review processes. Refer to the Dental Procedures Requiring Hospitalization medical necessity guidelines for more information.

Note: These procedures are covered under the member’s medical benefit. Tufts Health Plan will coordinate benefits payable for covered services with benefits payable by other plans, consistent with existing policies.

Massachusetts and Rhode Island fully insured groups: Except as noted above, coverage for services related to teeth is limited to the emergency treatment of accidental injury to sound and natural teeth by a source external to the mouth. Treatment must be rendered within 48 hours of the injury and is limited to x-rays and emergency oral surgery to temporarily stabilize tissue and/or repositioning of the fractured teeth. Restorative services including crowns, fillings, and root canals are not covered.

1 Commercial products include HMO, POS, PPO, and CareLinkSM when Tufts Health Plan is the primary administrator.
2 Tufts Medicare Preferred and Tufts Health Plan SCO are collectively referred to in this payment policy as Senior Products.

While you may not be the provider responsible for obtaining prior authorization, as a condition of payment you must confirm that prior authorization has been obtained. AUDIT AND DISCLAIMER INFORMATION
Tufts Health Plan reserves the right to conduct audits on any provider and/or facility to ensure compliance with the guidelines stated in this payment policy. If such an audit determines that a provider/facility did not comply with this payment policy, Tufts Health Plan will expect the provider/facility to refund all payments related to noncompliance. For more information about Tufts Health Plan's audit policies, refer to the Provider website.

This policy provides information on Tufts Health Plan claims adjudication processes. As every claim is unique, this policy is neither a guarantee of payment, nor a final indication of how specific claim(s) will be adjudicated. Claims payment is subject to member eligibility and benefits on the date of service, coordination of benefits, referral/authorization, and utilization management requirements (when applicable), adherence to plan policies and procedures, and claims editing logic. An authorization is not a guarantee of payment. Claims for services subject to authorization may be reviewed for accuracy and compliance with payment policies.

This policy applies to the Tufts Health Plan products, as identified in the checkboxes on the first page, and to CareLinkSM for providers in Massachusetts and Rhode Island service areas. Providers in the New Hampshire service area are subject to Cigna's provider agreements with respect to CareLink members. This policy does not apply to the Private Health Care Systems (PHCS) network (also known as Multiplan). Tufts Health Plan reserves the right to amend a payment policy at its discretion.
