

## Pharmacy Formulary Updates for January 2020

To offer a pharmacy benefit that is clinically appropriate and cost effective, we constantly review how we cover prescription medications. Periodic adjustments are made to meet these goals. The changes below are reflected in our online drug list.

The following is a list of drugs that changed formulary status in January 2020:

| Drug Name                      | Tufts Health Plan Commercial Formularies |                              |   |   |                              |                              |   |
|--------------------------------|--|------------------------------|---|---|------------------------------|------------------------------|---|
|                                | Massachusetts                            |                              |   |   | Rhode Island                 |                              |   |
|                                | Large Group 3-Tier Formulary             | Large Group 4-Tier Formulary | Small Group/ Individual 3-Tier (Exchange Formularies) | Small Group/ Individual 4-Tier (Exchange Formularies) | Large Group 3-Tier Formulary | Large Group 4-Tier Formulary | Small Group/ Individual 4-Tier (Exchange Formularies) |
| Aciphex                        | T3;PA;QL                                 |                              |   |   |                              |                              |   |
| Actemra prefilled syringe      | T3;PA;QL;SP                              | T4;PA;QL;SP (no change)      | T3;PA;QL;SP   | T4;PA;QL;SP (no change)                               | T3;PA;QL                     | T4;PA;QL (no change)         |   |
| Ajovy                          | T2;PA;QL                                 |                              |   |   |                              |                              |   |
| Ampyra                         | NC;QL;SP                                 |                              | NC;QL;SP (no change)                                  |   | NC;QL                        |                              | NC;QL (no change)                                     |
| Annovera                       | T3;QL                                    |                              |   |   |                              |                              |   |
| Arymo ER 60 mg                 | T1;PA;QL                                 |                              |   |   | NC;QL (no change)            |                              |   |
